

Camp Dragsö Sportfishing

Camp Dragsö Sportfishing is located in Karlskrona (Sweden) and are specialized in pike fishing. Our fishing business started in 1995 and we are growing for every year. Today our camp is made out of 31 cabins and 21 boats of various size and standard. Of course all of our cabins have their own grill and complimentary Wifi throughout the camp. Fishing guides, kayak rental, small tackle shop, jacuzzi and a part time restaurant available.

Season

Pike fishing is possible all year except in winter if there is ice. Peak season is in April-May and September-November. During these months both size and numbers can be crazy! We also fish for pike during summer, but further out in the archipelago where the water temp is a few degrees colder. Actually, the really big mamas are caught frequently in winter season from November to March. Perch is also an all year around fish but the best period for perch is late summer and early fall.

Species & Records

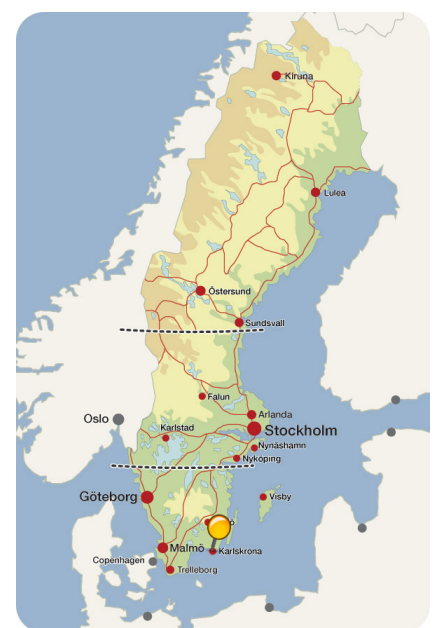

Some notable catches from our waters; pike 123cm (48,43 inc.), perch (2,1 kg), sea run brown trout (11 kg) and salmon (24,8 kg).

Fishing Service

Our fleet includes 20 rental boats. We only use durable aluminium boats in models Master500, Master 410 and Linder 440. All boats are equipped with modern 4-stroke engines from 5-50hp. The Master boats have Lowrance GPS. We offer trained guides that have a long and recognized experience from pike fishing in our area. In camp you can also find saunas, jacuzzi, tackle shop and a part year restaurant.

Location & Transfer

Dragsö Fishing Camp is located on the island Dragsö just west of the town of Karlskrona. There is a bridge connecting Dragsö with the mainland. Distance to Karlskrona 2,5 km, Malmö 210 km, Stockholm 490 km, Göteborg 350 km.

Equipment & tactics

Methods to catch pike are jerkbait fishing, spin fishing and fly fishing. We only accept customers who practice catch and release when pike fishing. For spin fishing we recommend a rod of 8-9ft and casting weight around 30-100gr. Perch is mainly caught with jig fishing or bottom angling. Salmon and sea trout are caught by trolling, fly fishing and spinning.

Regulations

Camp Dragsö Sportfishing recommends all guests to practice Catch & Release. One fish is fine to keep for dinner in the evening if wanted. Official regulations for pike is minimum size 40cm and maximum size 75cm. All fish outside of those measurements must go back to the water.

Other activities

The distance to Karlskrona City is less than 3 kilometers. Marine museum, Boda Borg (Questing), Karlskrona's beautiful old bath house, picturesque village setting, Blekinge Museum, restaurants, bars and shopping centers. About 50 km to salmon house in Mörrum.

Languages

At Camp Dragsö Sportfishing we speak Swedish, English and German.

Additional info

In the wonderful archipelago of Karlskrona you will find some of the best pike fishing areas in Sweden. Karlskrona archipelago is literally known as "The Pike Kingdom" due to the great fishing areas and its healthy pike habitat. You will easily reach these spots with our well equipped boats. Our guests normally catch between 5-30 pikes per boat and day. The best days up to 100 pikes in one day per boat.
